## 7. SCHEDULED PUBLIC HEARINGS

- a. Continued: Centerville CSD MSR SOI Update.

Mr. Williamson stated this hearing was continued from previous meeting as the district board requested time to consider the proposed reduced SOI to exclude public lands. The district did provide information that they are providing services to the public lands under certain circumstances. The Centerville CSD Board of Directors held a meeting in March and voted unanimously to oppose the SOI reduction. Based on Board justifications, Staff is recommending the SOI remain the same. At the previous Shasta LAFCO meeting, the Commission had some questions regarding finance including reserve accounts, water availability from the Bureau of Reclamation which Mr. Muehlbacher answered via letter and is incorporated into the Municipal Service Review.

There was Commission discussion regarding water service within special districts. There was a question regarding the amount of money in reserves and asked for explanation of temporary water service for public lands.

Chair Fust opened the public hearing. Chris Muehlbacher, Centerville CSD General Manager provided an estimated dollar amount of 1.2 million in both restricted and unrestricted reserves. He also explained that construction meters for water are used typically for public lands with control burns and light construction installation of culverts which are reimbursed except under an emergency such as the Carr fire. Exchange water is a contractual agreement for water rights with the Bureau of Reclamation and approximately 900-acre feet which is received. Chair Fust suggested this information be included in the MSR/SOI to explain difference between project water and exchange water.

Alternate Commissioner Ryness wanted to comment about the dry weather conditions this year. With no other public comments, the public hearing was closed.

The Commission discussed the issue brought up with the relationship of CalFire and County Fire Department, although it was not agendized or involving Centerville CSD. Chair Fust stated the issue would need to be agendized if it was under LAFCO purview and to his understanding that it is not. Commissioner Jones stated he would bring it up to the Shasta County Fire Chief and start the proceed at the county level regarding letter from John Whitmer. Alternate Commissioner

Rickert said this issue had been brought to the County's attention and recently has a new interim fire chief. She suggested she would contact Sean O'Hara, CalFire Interim Unit Chief to address this.

John Whitmer said this information had been brought to the County's attention back in January and nothing was done, it was brought to the attention of Chief Gouvea, the State Attorney General, the State Auditor's Office, the northern region Chief of CalFire, and nothing has been done. He believes the Shasta County Fire Department is a fire district and would be within LAFCO's interest. Chair Fust said this needs to start at the County level.
