RE: Recognition Programs for You and Your District

Dear Mr. Williamson,

Want to Expand Your Professional Knowledge and Promote District Operational Excellence? There's a Program for That!

The Special District Leadership Foundation (SDLF) has programs designed to promote good governance and best practices among California's special districts through certification, accreditation, and recognition.

Which will you choose?

District Programs:

- District Transparency Certificate of Excellence
- District of Distinction Accreditation

Individual Programs:

- Certified Special District Manager (CSDM)
- Certificate in Special District Governance
- NEW! Essential Leadership Skills Certificate

Enclosed is a brochure that highlights all of our programs and even includes information on scholarships should your budget not quite match up with your professional development goals.

I hope you'll plan for you or your district to pursue one or more of these programs in 2024 and join the hundreds of districts and peers that have already done so! We are here to support you as you do, so simply visit SDLF.org for more information and resources.

Sincerely,

Neil McCormick
Chief Executive Officer
